Subject: Plan Amendment, US Gypsum Corporation, Jumbo Jensen Quarry, M/041/008,
Task #1363, Sevier County, Utah

Dear Mr. Crawford:

This letter is a follow-up to the inspection by Lynn Kunzler and Doug Jensen on August 21, 2006 and response to plan amendment received March 28, 2006. The Division appreciated the opportunity to meet with you and the folks from the plant on site. Attached is the Division's inspection memo for your records.

Please note, as was discussed on site, you were planning to have the area flown and new maps generated. You will also be revising portions of the reclamation plan as discussed on site to replace the submitted maps and plans. The Division asks that this be completed with the new maps being submitted to the Division by October 31, 2006. This will allow us sufficient time to review and finalize the updated reclamation surety requirements. Please note, if you want a portion of the Crescent area released as discussed, you will need to make a written request (and show the area requested for release on your map).

As always, please don't hesitate to call if you have any questions regarding this matter. Should you need addition time to prepare the revised maps, please make this request in writing before the October 31st date.

Sincerely,

Susan M. White
Mining Program Coordinator
Minerals Regulatory Program
